*And Spring arose on the garden fair,
Like the spirit of love felt everywhere;
And each flower and herb on Earths
dark breast rose from the dreams of its
wintry rest.*

Volunteers for Gardening

Gaye B and Anne C need a few occasional volunteers for gardening, really simple chores, 10-15 min weekly occasionally. We need someone, or several someone's, to pull Japanese Knotweed out of the planted areas. It is otherwise known as White Morning Glory or Bindweed. It is easily recognizable and grows unchecked along the chain-link fence at the back of the property where it blooms and goes to seed and it's awful, but in our garden, it is controllable if we pull it now.

When it's pulled it can be placed on the cement in the gutter to dry out. It should be noted that if it's placed on soil it will root.

Please see Gaye B if you need further information.

**Kudos to
Residents &
Staff on doing
great for the
fire drill!**
