- **June 23** – BINGO
- **June 25** – Just Dance Requests
- **June 30** – Residents Meeting

"Dads are most ordinary men turned by love into heroes, adventurers, story-tellers, and singers of song."

"A father is someone you look up to no matter how tall you grow."

## FATHERS DAY AROUND THE WORLD

- A study done at the University of North Carolina found that in terms of genetic makeup, mammals are more like their fathers than their mothers. Even though we get the same number of genetic mutations from our parents, we actually use more of the DNA we get from our dads. Knowing this information can help in the study of diseases. For example, the severity of a disease can be different if passed down from the mother or the father.
- Father's Day was founded in Spokane, Washington at the YMCA in 1910 by Sonora Smart Dodd, who was born in Arkansas. Its first celebration was in the Spokane YMCA on June 19, 1910. Dodd is credited with starting Father's Day after hearing a sermon on Mother's Day. She wanted to honor her father William Jackson Smart, Civil War veteran and widower who raised six children on his own.
- Any grammar geek could find the quandary in this holiday title. Isn't the day set aside to celebrate all fathers, plural, rather than just an individual? Though Dodd petitioned for the holiday to be written as "Fathers' Day," the U.S. Congress used the term "Father's Day" when they established the day as an official holiday.
- One of the earliest dates back roughly 4,000 years. Elmesu, a Babylonian youngster, carved a card out of clay to "wish his father good health and long life."
- Father's Day's official flower is the rose. A red rose is worn in your lapel on Father's Day if your father is living, and a white rose is worn if he has passed away.
- The word "dad" was first recorded in 1500 but is most likely significantly older. Researchers believe it is derived from a child's first sounds and is nearly universal. In other languages, the word is tad (Welsh), daid (Irish), tata (Greek), tete (Lithuanian), and tatah (Sanskrit).
- The father with the most children is most likely Ismail Ibn Sharif, an Alaouite sultan who fathered 888 children with hundreds of wives and concubines in the late 17th century.

Nick's 100<sup>th</sup> Birthday!
